WEEE compliance schemes

Helping to set the standard for WEEE lighting

EucoLight

European Association of lighting
WEEE compliance schemes

EucoLight - The European association of collection and recycling organisations for WEEE lamps and lighting

The collection and recycling of lighting is facing unprecedented challenges and opportunities with the transition to new technologies and a rapidly changing regulatory environment. The business of recycling WEEE lighting is evolving, reinventing its approach to meet the needs of the 21st century.

EucoLight will strengthen the lighting sector, becoming the main forum for development and communication, helping to shape the future of lighting WEEE in Europe. It will add value to all lighting Producer Compliance Schemes in the fields of legislation, policy, logistics, standardisation and communication.

EucoLight is the voice of lighting WEEE

The voice of European WEEE Producer Compliance Schemes specialised in managing the collection and recycling of WEEE lighting; working to make the circular economy a reality for lighting products.

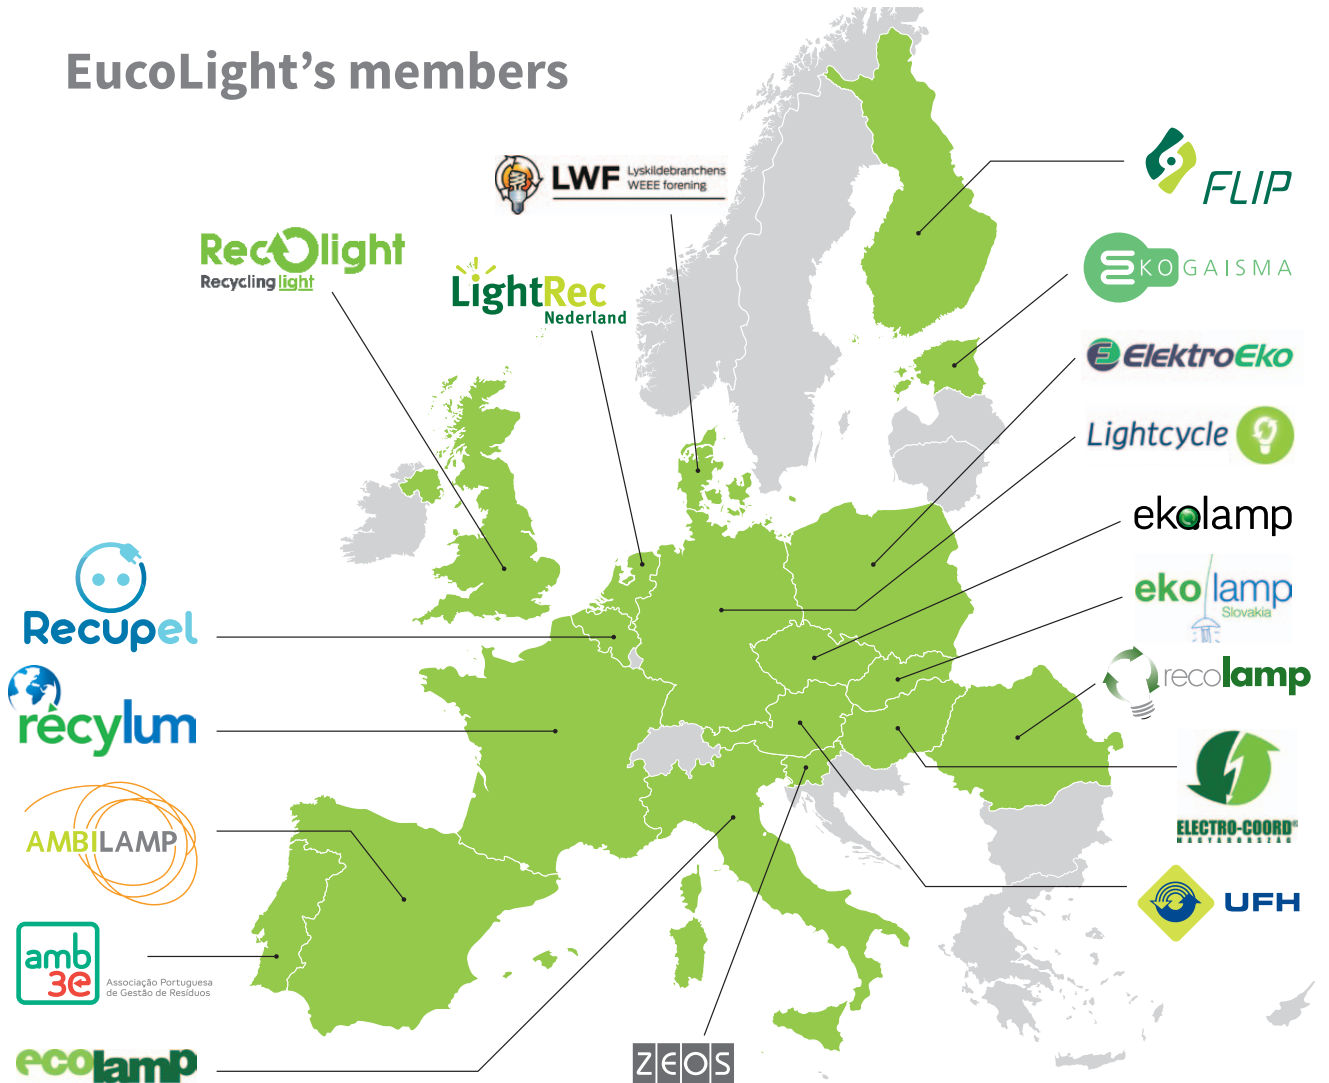

Promoting the positive role of Extended Producer Responsibility schemes on the environment and society.

Engaging in constructive dialogue with stakeholders to provide expertise in the field of collection and recycling of WEEE lighting.

Founded in 2015, EucoLight engages with everything related to the WEEE Directive, legislation and standards affecting the collection and recycling of WEEE lighting; working on behalf of its Producer Compliance Scheme members.

EucoLight's members
